»ILFORD Certified Print Partners«

ILFORD expand global Network of local Photographers and Print Service Providers
Certification confirms high quality and tailor-made Inkjet Prints in Art and Photography

ILFORD Imaging Europe, Bergisch Gladbach/Germany, August 2017

ILFORD expands its global network of local photographers and print service providers to provide customers with a local service: the end customer does not need any expert knowledge – the certified ILFORD print service provider handles his prints including the right profiles and color management right up to the choice of the ideal paper.

Experts who know exactly what they want now have an appropriate contact at »ILFORD Certified Print Partner«, taking care of the print service.

With this ILFORD offers print service providers and photographers the opportunity to certify themselves through a qualification. In return, ILFORD will name its certified partners on the ILFORD website, so they can be found easily and quickly.

Certification Process for »ILFORD Certified Print Partner«

The certification process starts with an online form. After filling in the form he gets access to the four print files, to be printed on two different ILFORD gallery papers. The printed charts are then sent to ILFORD for evaluation. After passing the exam, the partner receives the certificate: »ILFORD Certified Print Partner« and is listed ILFORD 's website.

Price and Performance

The costs for the certification is Euro 239.- (including VAT) and include ILFORD Gallery Smooth Pearl and Smooth Cotton Rag in A3 +.

About ILFORD

Established in 1879, ILFORD is one of the oldest photographic brands in the industry. With a history that spans over 135 years, until today ILFORD is the synonym for professional quality.
